

Course Transfer Criteria & Quota for Year 2 and Above Undergraduate Students in Autumn Semester of AY2026/27

Faculty of Science and Engineering (FoSE)

Timeline

Application window: From 00:00 on Friday 18 September 2026 to 23:59 on Thursday 24 September 2026 (China Time)

Outcome release: By Wednesday 14 October 2026

Next course transfer window for Year 2 and above undergraduate students: Spring Semester of Academic Year 2026/27

Submission Guidance

Please submit your course transfer application via the Course Transfer Application service card on Student Portal using the recommended web browsers (Google Chrome or Firefox). During this cycle, only course transfer applications submitted through the Student Portal will be accepted; other formats (e.g., email or in-person) are not allowed.

[Please refer to the submission guidance HERE](#)

Instructions

1. Each student may submit only ONE application. Once submitted, no changes or withdrawals are allowed. Early applications do not have any advantage.
2. The deadline is 23:59 Thursday 24 September 2026 (China Time). Late applications will NOT be accepted. Do not submit your application close to the deadline to avoid any last-minute complications caused by potential delays or technical issues.
3. Supporting materials are not required unless specified, but can be uploaded in section 2 of the application form if desired.
4. Upon successful submission, you will receive a confirmation email from “BPM”. The final result will be released via “BPM” email by Wednesday 14 October 2026.
5. If the transfer application is accepted, the year in the new course will be determined by the destination School/Department. By submitting the application, you are deemed to have accepted its decision.
6. It is your responsibility to ensure that your sponsor (normally your parents) is informed of the potential course change.
7. If the course transfer application is approved, the scholarship will be ranked under the new course title for University Academic Excellence Scholarship for Academic Year.
8. This course transfer window is NOT applicable to Preliminary Year (Year 1), Exchange-in, or PGR students. Applications from students who fail to progress to Year 2 by the deadline, 23:59 Thursday 24 September 2026 (China Time), will be automatically rejected.

Enquiries and Contact

If you encounter any technical issues when submitting an application, please email the destination Faculty Office. You will receive a response from the office within three working days.

If your course transfer application is successful, you will receive an email notification from the official “BPM” account. This is the **ONLY valid channel** for notifying you of the application outcome—oral communications from staff members do not constitute an official or final result for your course transfer application. Once you have received the email notification, please contact the new Faculty Office for the detailed arrangements of your new programme of study.

Faculty of Science and Engineering: FoSE@nottingham.edu.cn

Faculty of Humanities and Social Sciences: FHSS@nottingham.edu.cn

Nottingham University Business School China: NubschinaFO@nottingham.edu.cn

Course Transfer Criteria of Faculty of Science and Engineering

For students at Qualifying Year (Y2 for 4-year course), Part I Stage (Y3 for 4-year course) and Part II Stage (Y4 for 4-year course) ONLY.

I. Transfer Type and Definition

Type 1 Application:

Applicant has completed at least one stage at UNNC. Course transfer between courses with same course structure in Qualifying Year (Y2 for 4-year course).

The following course pairs have the same course structure in Qualifying Year(Y2):

- BEng Hons Chemical Engineering and BEng Hons Environmental Engineering
- BSc Hons Computer Science and BSc Hons Computer Science with Artificial Intelligence
- BSc Hons Mathematics with Applied Mathematics and BSc Hons Statistics
- (4+0) and (2+2) courses with same course title. Example: BEng Hons Electrical and Electronic Engineering (2+2) & BEng Hons Electrical and Electronic Engineering (4+0)

Type 2 Application:

Applicant has completed at least one stage at UNNC. Course transfer between courses with different course structure in Qualifying Year(Y2).

All courses outside FoSE (Faculty of Science and Engineering) have different course structure in Qualifying Year(Y2). All other course pairs NOT listed in Type 1 have different course structure in Qualifying Year(Y2). Example: BEng Hons Architectural Environment Engineering and BEng Hons Architecture.

Type 3 Application:

Applicant has not completed at least one stage at UNNC. Example: A student entered Qualifying Year(Y2) directly without taking Preliminary/Foundation Year (Y1) at UNNC.

II. Criteria and Quota for Type 1 Applications

Department/School	Destination Course	Quota	Additional Criteria Items	Specific Additional Criteria	Ranking Rules * by descending order
School of Computer Science	BSc Hons Computer Science/BSc Hons Computer Science with Artificial Intelligence	3 (2+2 to 4+0)	A: Weighted average of all the year average mark(s) available in the official transcripts of UNNC.	A is no less than 70	A*100%
	BSc Hons Computer Science (CS) / BSc Hons Computer Science with Artificial Intelligence (CSAI)	No quota restriction between CS 4+0 and CSAI 4+0	CS 4+0 to CSAI 4+0 applicants must have completed the compulsory modules of CSAI (which differ from CS only from the second semester of Part I (Y3 for 4-year course) onwards).	N/A	N/A

In Autumn semester 2026/27 cycle, **ALL 4+0 courses in the Faculty of Science and Engineering are open to Type 1 applications. NO 2+2 courses are available for Type 1 applications. Apart from the destination courses listed in the table above, the School/Department will consider the applications on a case-by-case basis.** Type 1 applications will not count towards the quota for Type 2 application. Successful applicants will join the new course immediately at their current stage.

III. Criteria and Quota for Type 2 Applications

1. Compulsory criteria for all FoSE courses except BEng Hons Architecture.

Applicants should meet the admission entry requirements for this course (including Gaokao, International, HMT and SPP route). For students admitted through Gaokao:

- 1) Students from the 'old Gaokao exams' areas should be Science Background Student (理科生) in High School.
- 2) Students from the 'new Gaokao exams' areas should meet one of the following criteria :
 - a. The admission required selective subject(s) (高考选考科目) has been chosen in Gaokao for relevant courses.
 - OR
 - b. In the High School Graduation Exams (学考/会考), score Grade B (applied to exam with grade)/Pass (applied to exam without grade) or above in Maths and one of these subjects: Physics, Chemistry, Biology and Technology.

Applicants who **ONLY** meet **condition 2)-b** should upload High School Graduation Exams (学考/会考) transcript when submitting the application form on Student Portal. Applicants who meet **condition 1)** or **condition 2)-a** DO NOT need to upload it.

2. Quota, Additional Criteria and Selection Process

Department/School	Destination Course	Quota	Additional Criteria Items	Specific Additional Criteria	Ranking Rules * by descending order
Department of Architecture and Built Environment	BEng Hons Architecture	6 (4+0)	Criterion may be considered: A: Weighted average of all the year average mark(s) available in the official transcripts of UNNC. B: Mark achieved in departmental transfer written test. C: Mark achieved in departmental transfer interview and portfolio evaluation. D: Mark of CELEN039 or CELEN122 (Resit marks are not considered).	1) A is no less than 55. 2) Submit portfolio and attend interview. Please refer to 5. Portfolio, Test and Interview for more details.	A*30% + C*70%
	BEng Hons Architectural Environment Engineering	20 (4+0)		1) A is no less than 55.	A*100%
Department of Chemical and Environmental Engineering	BEng Hons Chemical Engineering	20 (4+0)		No additional criteria.	A*100%
	BEng Hons Environmental Engineering	25 (4+0)		No additional criteria.	A*100%
	BSc Hons Chemistry	12 (2+2)		No additional criteria.	A*100%
Department of Civil Engineering	BEng Hons Civil Engineering	15 (4+0)		No additional criteria.	A*100%
School of Computer Science	BSc Hons Computer Science/BSc Hons Computer Science with Artificial Intelligence	10*(4+0)		1) A is no less than 60.	A*100%
Department of Electrical and Electronic Engineering	BEng Hons Electrical and Electronic Engineering	41(4+0)		1) A is no less than 60. 2) D is no less than 60.	A*100%
School of Geographical Sciences	BSc Hons Environmental Sciences	10 (2+2)		1) A is no less than 60.	A*100%
School of Mathematical Sciences	BSc Hons Mathematics with Applied Mathematics	15* (4+0)		1) A is no less than 60. 2) B is no less than 40. 3) Attend the course transfer test. Please refer to 5. Portfolio, Test and Interview for more details.	B*100%
	BSc Hons Statistics	15* (2+2)		1) A is no less than 60. 2) B is no less than 40. 3) Attend the course transfer test. Please refer to 5. Portfolio, Test and Interview for more details.	B*100%
Department of Mechanical, Materials and Manufacturing Engineering	BEng Hons Aerospace Engineering	20* (4+0)		1) A is no less than 55. 2) B is no less than 60. 3) Attend the course transfer test. Please refer to 5. Portfolio, Test and Interview for more details.	A*50% + B*50%

	BEng Hons Mechanical Engineering	25* (4+0)		1) A is no less than 60. 2) B is no less than 60. 3) Attend the course transfer test. Please refer to 5. Portfolio, Test and Interview for more details.	A*50% + B*50%
	BEng Hons Product Design and Manufacture	20* (4+0)		1) A is no less than 55. 2) Submit portfolio and attend interview for assessment. Please refer to 5. Portfolio, Test and Interview for more details.	A*50% + C*50%

**Applicants who transfer within the same Department/School do not count towards the quota.*

3. Courses NOT Open for Accepting Type 2 Transfer in Autumn Semester 2026/27 Cycle

School/Department	Destination Course	Quota
School of Computer Science	BSc Hons Computer Science(2+2)/BSc Hons Computer Science with Artificial Intelligence (2+2)	0
Department of Electrical and Electronic Engineering	BEng Hons Electrical and Electronic Engineering (2+2)	0
Department of Architecture and Built Environment	BEng Hons Architectural Environment Engineering (2+2)	0
Department of Chemical and Environmental Engineering	BEng Hons Chemical Engineering (2+2)	0
	BEng Hons Environmental Engineering (2+2)	0
Department of Civil Engineering	BEng Hons Civil Engineering (2+2)	0
School of Mathematical Sciences	BSc Hons Mathematics with Applied Mathematics (2+2)	0
Department of Mechanical, Materials and Manufacturing Engineering	BEng Hons Aerospace Engineering (2+2)	0
	BEng Hons Mechanical Engineering (2+2)	0
	BEng Hons Product Design and Manufacture (2+2)	0

4. Timeline and Stage for Joining the New Course

- Successful applicants for all courses except BEng Hons Architecture will join the new course from the **Qualifying Year (Year 2 for 4-year course) in October 2026**.
- Successful applicants for BEng Hons **Architecture** will join the new course from the Spring semester of **Preliminary Year (Year 1 for 4-year course) in February 2027**.

5. Portfolio, Interview, Test

1) Information for BEng Hons Architecture

- A portfolio of art/design work is required, and it should be no larger than A3 size and between 10 and 20 pages. Either digital version or hardcopy is acceptable, but hardcopy is preferred. Department will treat digital version and hardcopy version equally without bias. The portfolio does not need to be architecturally focused and may include drawings, painting, sculpture, photography, graphics, product design or any other work in visual design. Department will not be able to return the work to applicants, so please do not send originals. The copies may be in any appropriate formats, e.g. photographic, photocopy, digital printouts. Please make sure that they have sufficiently high quality to justify your work.
- Please send digital version of design portfolio to FOSE@nottingham.edu.cn or submit hardcopy of design portfolio to PMB416 before the application deadline. Application submitted without the Design portfolio will be declined automatically without consideration.
- If applicants fail to submit the portfolio or attend the course transfer interview, their transfer application will be automatically rejected without consideration.
- Time and location of the interview will be released by the Faculty Office of Science and Engineering.

2) Information for BSc Hons Mathematics with Applied Mathematics and BSc Hons Statistics

- Applicants will be invited to a course transfer test consisting of mathematics questions that assess content from CELEN083(Advanced Foundation Maths–1) and CELEN084(Advanced Foundation Maths–2).
- If applicants fail to attend the course transfer test, their transfer application will be automatically rejected without consideration.
- Time and location of the test will be released by the Faculty Office of Science and Engineering.

3) Information for BEng Hons Mechanical Engineering and BEng Hons Aerospace Engineering

- Applicants will be invited to a course transfer test. The test is a basic Physics-based test, topics including force analysis, linear acceleration, velocity and displacement, linear impulse and momentum.
- If applicants fail to attend the course transfer test, their transfer application will be automatically rejected without consideration.
- Time and location of the test will be released by the Faculty Office of Science and Engineering.

4) Information for BEng Hons Product Design and Manufacture

- A portfolio demonstrating design potential is required. The portfolio should be in A3 size (either vertical or horizontal orientation is acceptable, but only one type of orientation should be used throughout). The number of pages should be between 5 and 10. The portfolio should contain work that demonstrates your design potential, such as but not limited to, hand sketches, examples of your design ideas, model making, CAD modelling and rendering. The portfolio must consist of the applicant's original work. Applicants must submit both a digital copy and, optionally, a hard copy. Please note that the hard copy will NOT be returned.
- Applicants need to send the digital version of the portfolio to FOSE@nottingham.edu.cn and submit the hardcopy to PMB416 before the application deadline. Applications submitted without the portfolio will be automatically declined without consideration.
- Applicants will be invited to attend a portfolio interview. This interview is an opportunity to present and discuss the work included in the portfolio. The focus is on understanding applicant's ideas and design potential.
- If applicants fail to submit the portfolio or attend the course transfer interview, their transfer application will be automatically rejected without consideration.
- Time and location of the interview will be released by the Faculty Office of Science and Engineering.

IV.Criteria and Quota for Type 3 Applications

1. Course Transfer between Courses with Same Course Structure in Qualifying Year (Y2)

Type 3 applicants who apply for a course transfer between courses with same course structure in Qualifying Year (Y2) will be assessed using the same selection criteria and quota as Type 1 applications. Please refer to [II: Criteria and Quota for Type 1 Applications](#).

The following course pairs have the same course structure in Qualifying Year(Y2):

- BEng Hons Chemical Engineering and BEng Hons Environmental Engineering
- BSc Hons Computer Science and BSc Hons Computer Science with Artificial Intelligence
- BSc Hons Mathematics with Applied Mathematics and BSc Hons Statistics
- (4+0) and (2+2) courses with same course title. Example: BEng Hons Electrical and Electronic Engineering (2+2) & BEng Hons Electrical and Electronic Engineering (4+0)

【Important Note】 Course transfer within the **School of Computer Science** is **NOT** open for accepting Type 3 transfer in Autumn Semester 2026/27 Cycle.

2. Course Transfer between Courses with Different Course Structure in Qualifying Year (Y2)

For Type 3 applicants who apply for a course transfer between courses with different course structure in Qualifying Year (Y2), courses NOT open to Type 3 applicants are the same as those not open to Type 2 applications. Please refer to [3. Courses NOT Open for Accepting Type 2 Transfer in Autumn Semester 2026/27 Cycle](#). School/Department will consider the applications on a case-by-case basis, and these applications will not count towards the quota for Type 2 application. The applicant should meet the admission entry requirement for entering the Qualifying Year(Y2) of the destination course. Some destination course may require applicants to submit portfolio, attend an interview or test. Please refer to [5. Portfolio, Test and Interview](#) for information of Portfolio, Test and Interview.

Successful applicants for all courses except BEng Hons Architecture will join the new course from the Qualifying Year (Y2) in October 2026. Successful applicants for BEng Hons Architecture will join the new course from the Spring semester of Preliminary Year (Y1) in February 2027.

V. Other important information

1. Applications submitted for courses that are not open in the current application cycle will be rejected without consideration.
2. Applicants who do not meet the transfer criteria will NOT be considered even if there are less qualified applicants than the published quota.
3. If qualified applicants who meet the school's minimal transfer criteria exceed the published quota, the school will select the applicants in descending order based on the ranking rules described above.
4. The applications from students in termination status will be considered on a case-by-case basis. The aforementioned criteria will be considered; however, school/department may not accept this kind of applicants even though they meet the transfer criteria.
5. The final interpretation of any and all information stated herein is at the sole discretion of the school/department that offer the corresponding course.
